

School visits to Dundee synagogue

For a number of years now Dundee Synagogue is offering schools in Tayside and Fife an opportunity to visit the synagogue and have an explanation of what we do.

Being a charitable organisation we are committed to offering such a service as part of our public functions, and there is no charge to schools or pupils. In November 2012 we hosted 194 pupils and their teachers in the eight sessions, each lasting an hour. Large schools bring along specific class or age group to visit us whereas some rural schools have brought over all of their pupils for a 'day out'.

Half of each group is being addressed in the area used for prayer and the other half in the kitchen hall. They are told about the building, the community and the Jewish way of life.

We find the sessions an enriching experience and love to answer the many and varied questions the children have. Most of all we love getting their feedback which come as thank you cards and drawing which we cherish. Below are a few examples from our last visit.

Happy Hanukkah from all of us!
